

Indian pharma companies explore fill and finish facilities in Colombia

MUMBAI, March 15 (Xinhua) -- Indian pharmaceutical companies are planning to set up fill-and-finish facilities in Colombia and supply to the entire American continent, Colombian Ambassador to India Mariana Pacheco Montes has said here during an event.

According to a statement released on Tuesday by trade facilitating body MVIRDC World Trade Center Mumbai, which organized the interactive session, the Indian companies include Serum Institute, Bharat Biotech, Genova Biotech and Biological E, said the ambassador.

The ambassador noted that Colombia is the third fastest-growing economy in the world with an economic growth of more than 10 percent last year and the country needs the support of India in this growth journey and eradication of poverty. ■
