

## India's Fruit Exports on a Rise

India exported USD 100 million worth of fresh bananas in 2020, growing by about 32 per cent over 2019. While exports to Iran, UAE, Iraq, Saudi Arabia, Qatar and Afghanistan grew during this period, exports to Oman, Nepal, Kuwait and Bahrain declined, among other countries.

India exported USD 95 million worth of mango pulp in 2020, growing by about 13 per cent over 2019. While exports to Saudi Arabia, Yemen, Oman, China, Germany and Canada increased during this period, exports to Netherland, Kuwait, USA and UK declined, among other countries.

India exported USD 56 million worth of oranges in 2020, growing by about 112 per cent over 2019. Exports to Bangladesh constituted about 88 per cent of India's exports of oranges to the world in 2020 and exports to Nepal constituted another 10 per cent. While exports to Bangladesh grew by 129 per cent in 2020 over 2019 and exports to Nepal grew by 38 per cent, exports to UAE, Kuwait, Egypt, Saudi Arabia and Bahrain also increased during this period.

India exported USD 15 million worth of fresh apples in 2020, growing by about 39 per cent over 2019. Exports to Bangladesh constituted about 57 per cent of India's exports of fresh apples to the world in 2020 and exports to Nepal constituted another 40 per cent. While exports to Bangladesh grew by 93 per cent in 2020 over 2019 and exports to Nepal grew by 4 per cent, exports to UAE, Oman and Saudi Arabia also increased during this period.

Growth in India's Fruit Exports in 2020				
HS Code	Commodity Description	Jan-Dec 2019 (R) (USD Million)	Jan-Dec 2020 (F) (USD Million)	% Growth
8039010	BANANAS, FRESH	75.81	99.91	31.79
8045040	MANGO PULP	84.54	95.35	12.78
8051000	ORANGES FRESH OR DRIED	26.65	56.38	111.53
8134010	TAMARIND DRIED	20.58	21.97	6.76

India also witnessed a rise in exports of dried tamarind, and lemons and limes. The following table highlights growth in India's fruit exports in 2020.
