'Technology propelling women's foray into business'

We live in a dynamic era. Technology has revolutionized our lives and areas of work in particular. Keeping pace with this technological process, World Trade Centre Mumbai has taken various initiatives to promote trade and investments through its global network, World Trade Centers Association, New York.

The Panel discussion will deliberate on:

- The unique challenges faced by women in advancing their professional career.
- The opportunities which have unfolded as a result of this revolution across countries, particularly in creating new avenues.
- Bring forth case studies of women across regions who have been able to bring about a change in their lives/share experiences and success stories of women achievers from their country.
- How technology has helped women to achieve work-life balance.
